In the half court he is good against man as he is shooting 54.5% (12/22) (36 possessions) but against zone he tends to struggle. It is a small sample size of 9 possessions but he is shooting 16.7% (1/6) against zone. Running a zone could be effective against Jacob as it would take away his ability to drive to the basket.

He has a good pull up game as he is shooting 50.0% (9/18) off of dribble jumpers this season including 52.9% (9/17) from 2 so watch for his pull up and post fade game in the mid range when guarding him. Pharell Aybar (#3)

Guard, 6'1", Fr (170 lbs)

- 50.0% Defensive FG% (8/16) (1.19 PPS 16th percentile on Synergy)
- 8 out of 9 P&R's are High P&R's

Player Profile

Pharell is an athletic guard that is looking to speed you up on defense. He may average 3.0 steals a game but most of these steals are off of broken plays where the offensive player loses the ball due to being sped up so don't let him speed you up because when he doesn't steal the ball he is not a very good defender with his defensive FG% being 50.0% (8/16). Offensively he is looking to get down hill as he is shooting 52.4% on shots at the rim (11/21).

Ajani Flemming (#13)

Player Profile

Ajani comes off the bench and is looking to light it up from 3. Most of his 3's come off of Catch & Shoot jumpers with 15 of his 17 3 point attempts being from Catch & Shoot. He will let it fly from deep with some of his shots coming from the logo so defenders will have to know where he is at all times. On the season he is shooting 41.2% from 3 (7/17) and 46.7% (7/15) from 3 off of Catch & Shoot jumpers.

Marco Evans (#23)

Player Profile

Marco is a very poor defender as his defensive FG% so far this season is 80% (8/10) (13 possessions) with opponents shooting 100.00% (4/4) from 3 so far this season making his effective field goal percentage on defense 100.00%. - 27.3% TO% 9 turnovers on 33 possessions (leads team: minimum 10 possessions)

Player Profile

Emilio is averaging 1.5 SPG but is a very poor defender as his defensive FG% is 71.4% (5/7) he tends to get blown by easily on defense which can end up leading to good drive and kick opportunities or finishes at the rim. Offensively he is a below average 3 point shooter shooting 30.0% (3/10) from 3 but is good around the rim shooting 83.3% (5/6) on shots at the rim. Overall he is shooting 47.6% (10/21) from the field.
