PAC (DIII)

Record: 21-8

Sarah Santicola (#15)

Forward/Center, 6'2, Sr (Returner)

Key Stats

- Made up 61% of Teams Post Ups (229 - 373), [46.7% of her own plays]
- At Rim 1.00 PPS (198 attempts), Jump Shot 0.33 PPS (48 attempts)
- Versatile and efficient on Right Block
Left-Shoulder: 49 Atts, 20-40(50%)
Right-Shoulder: 43 Atts, 18-34(53%)
- Less efficient on Left Block
Left Shoulder: 34 Atts, 9-25 (36%)
Right Shoulder: 11 Atts, 4-9 (44.4%)

Player Profile

Santicola lives in post, mainly from the right block, as she tends to have more success there compared to the left block. She's a weaker player going towards the left shoulder in the post, especially on the left block (9-25 FGA). She also majorly struggles with any shot outside the paint (8-48 FGA on jump-shots). Forcing her to go left while on the block, getting very physical while boxing out, and moving her out of the paint will likely reduce her overall effect on the game

Isabella Antonacci(#23)

Guard, 5'7, So (Returner)

Key Stats

- 11.8 PPG, 7.2 RPG, 4.7 APG, 1.2 SPG
- 50.6 FG%, 41.2 3PT% in transition
- 33.8 FG% as P&R Ball-handler
- 46.0 Unguarded vs 11.5 Guarded
Jumpshot 3PT%

Player Profile

Expect high usage of Antonacci in transition, as it's the most threatening aspect of her game. She like to get to her spot and get off a shot as quickly and efficiently as possible. However, she tends to struggle against any sort of pressure, which is reflected in her performance in the Pick & Roll as the primary ball handler, as well as on guarded 3PA (3-26). Guarding Antonacci as closely as possible and limiting any room for her to operate will likely reduce her overall effect on the game.

Jess Bickart (#14)

Guard, 5'8, Sr (Returner)

Key Stats

- 6.8 RPG, 1.96 SPG
- 40.0 FG% off spot-up jumpshots (56.3 2PT%, 34.7 3PT%)
- 38.1 3PT% off of P&R as primary ballhandler
- 33.3 FG%, 41.7 TS% on dribble jumpers

Player Profile

Bickart is used as a 3&D asset in Allegheny's system. She mainly takes spot-up jumpers, but also excels in 3PA off the pick & roll. She struggles once she has to put ball on the floor, as her dribble jumpers are significantly less efficient than her catch and shoot jumpers, especially 2PA (15-41). Closing out early and forcing her to either pass out of the defense or driver will likely reduce her effect on the game.

Ava Kobus (#22)

Guard/Forward, 6'0, So (Returner)

Key Stats

- 7.8 PPG, 4.5 RPG
- 45.0 FG% against man vs 33.3 FG% against zone
- 47.9 FG% on post-ups (23-48) vs. 25.7 FG% on Spot Up Shots (9-35)
- 61.9 FG% on Put-Backs (13-21)

Player Profile

Expect high usage of Kobus in post-ups and spot-up jumpers. She's most efficient within the paint, and is exceptional at second-chance points. However, she tends to struggle from the field the farther out from the paint she is. Getting physical when boxing out and encouraging her to shoot outside jumpers (3-25 on 3PA) will likely reduce her overall effect on the game.

Kate Leach (#13)

Forward, 6'1, Sr (Returner)

Key Stats

- 37 FG% in 22 games (9.6 MPG)
- 35.6 TO%
- 16.5 FG% on spot-up jumpers, 25 FG% on jumpshots overall
- 50 FG% at the rim

Player Profile

Leach struggles with the ball in her hand. She turns the ball over at an extremely high rate, and is very inefficient from the field, especially outside the paint. Forcing her to make a decision away from the basket will remove her overall effect on the game.

Pascale Olczak (#40)

Forward/Center, 6'1, So (Returner)

Key Stats

- 6.3 MPG in 10 games
- 0.750 PPP on 35.3 FG% (12/34)
- 55.6 FT% (5/9)
- AVG Game Score 1.44

Player Profile

Olczak is a Post-Up Big that didn't see much time last season. When she gets into the game she is looking to score but she is very inefficient from the field as she has a true shooting percentage of 35.5%. Force her to shoot and force her to her weak hand.
